

DuPont Refinish

HZ-1503

Glass Surfacers

Description

HZ-1503 Glass Surfacers is a solvent mixture developed as a final stage surfacer for glass substrates. It acts as an adhesion promoter when used in conjunction with Centari® 5035 or Centari® 6000 top coat systems.

Products

HZ-1503 Glass Surfacers

Properties

HZ-1503 Glass Surfacers – Prepares glass substrates for promoting paint adhesion.

HZ-1503 Glass Surfacers must be used as a final stage process before application of Centari® 5035 or Centari® 6000 top coat systems.

Note: When used in conjunction with Centari® 6000 basecoat, Centari® BK220 Anti Chip Protector must be added as per the recommended quantity (refer to Centari 6000 Technical Data Sheet).

Application

Clean glass substrate thoroughly with suitable detergents to remove all contaminants, including dirt, oil, grease, lint, etc.

Glass substrate must be thoroughly rinsed with deionised water to remove excess residue and prepare substrate for application of HZ-1503 Glass Surfacers.

Using a lint free Sontara® wipes liberally apply HZ-1503 Glass Surfacers to all areas to be painted. In order to ensure a clean streak free finish reapply HZ-1503 to all areas to be painted prior to application of Centari® 5035 or Centari® 6000 top coats.

Follow recommendations provided in DuPont Centari® 5035 or Centari® 6000 Technical Data Sheets for mixing of and application of topcoats.

Glass Surfacers

Product data

5 litre screw top containers

20 litre drums with a bung

Product safety information

Hazards Classification

Product	Flashpoint	European Community hazard symbols	Main hazardous materials
HZ-1503	12°C	R11 Highly flammable R36 Irritating to eyes R67 Vapours may cause drowsiness or dizziness R65 Harmful: may cause lung damage if swallowed	Isopropanol

Safety Recommendations

HZ-1503 Glass Surfacers is solvent based

- Keep container tightly closed and in a well ventilated area
- Avoid contact with skin and eyes
- Keep away from sources of ignition
- No smoking
- Do not breathe vapour
- In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
- Take precautionary measures against static discharges.
- In case of insufficient ventilation, wear suitable respiratory equipment.
- In case of fire use alcohol type foam or dry chemical.

This data relates only to the material designated herein and does not apply to use in combination with any other material or any process.
